The conference will highlight the spectrum of care following traumatic brain injury by exploring:

- research
- acute care
- rehabilitation
- reintegration
On September 22, 2011, the Center for Public-Private Partnerships at the Henry M. Jackson Foundation for the Advancement of Military Medicine, along with the Uniformed Services University of the Health Sciences, will present a symposium spotlighting topics relating to the spectrum of care following traumatic brain injury.

The USU-HJF Military Medicine Symposium will bring together a broad spectrum of participants, including representatives of the Military Health System and military leadership, the Department of Veterans Affairs and other federal agencies, research institutions, philanthropists and charitable foundations, representatives of industry, and policymakers.

For more information, including the latest agenda and sponsorship opportunities, please visit www.hjfcp3.org/events/2011-symposium/ or contact Jackie Vandermeersch at 301-294-1441 or jvandermeersch@hjf.org. Attendees may register online at http://www.cvent.com/d/hdqhvr or return the enclosed response card.

About the Host Organizations

The Henry M. Jackson for the Advancement of Military Medicine, Inc. (HJF) is a private, not-for-profit organization dedicated to advancing military medical research. The Foundation, established in 1983, is authorized by Congress to support medical research and education at the Uniformed Services University of the Health Sciences and throughout the broader military medical community.

www.hjf.org

The Center for Public-Private Partnerships (CP3) at HJF helps bridge the nation’s military and civilian sectors and expand the network of resources available to our military medical system. The center builds agile teams of experts across military and civilian communities and engages grateful citizens to ensure that America’s service members and veterans receive the most innovative care and far-reaching support our nation can provide.

www.hjfcp3.org

The Uniformed Services University of the Health Sciences (USU) is the nation’s federal health sciences university and is committed to excellence in military medicine and public health during peace and war. USU provides the country with health professionals dedicated to career service in the Department of Defense and the United States Public Health Service and with scientists who serve the common good.
